

Conventional Offset Printing

MLI Integrated Graphic Solutions offers the best in conventional offset printing. We consistently win industry awards of excellence every year. All our presses utilize computer-to-plate technology, providing time and material savings, along with optimal accuracy and quality. We can print anything from business cards to 28" x 40" posters, sell sheets, postcards, pocket folders, magazines and catalogs. We offer up to six colors with in-line aqueous coating in one pass.

Our complete in-house bindery includes everything from collating, stitching, folding and trimming, to foil stamping and die cutting.

Our fulfillment department can package your printing into kits, combine it with specialty items or your provided products, and ship it in any configurations you can imagine, worldwide.
